

WhizzHealthCare

Centralized Digital Health Management

Powered by WhizzAct

A Unified Ecosystem for Modern Healthcare

The Vision:

Connecting administrators, doctors, and patients through a single, controlled, and **secure** ecosystem.

The Solution:

Web-based platform enabling centralized registration, admin-managed appointments, and integrated  **video teleconsultation.**

The Edge:

 **Admin-first** control architecture combined with modern ease of use.

Operational Value Across the Board

For Hospitals & Clinics

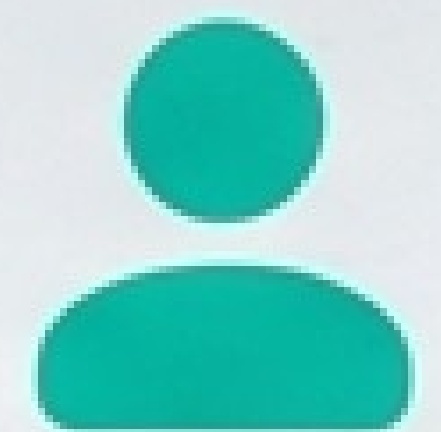

- Full visibility over operations.
- Elimination of manual registers and spreadsheets.
- Reduced dependency on staff availability.

For Doctors

- Zero administrative burden.
- Simple, distraction-free appointment lists.
- Built-in consultation tools (Video + Reporting).

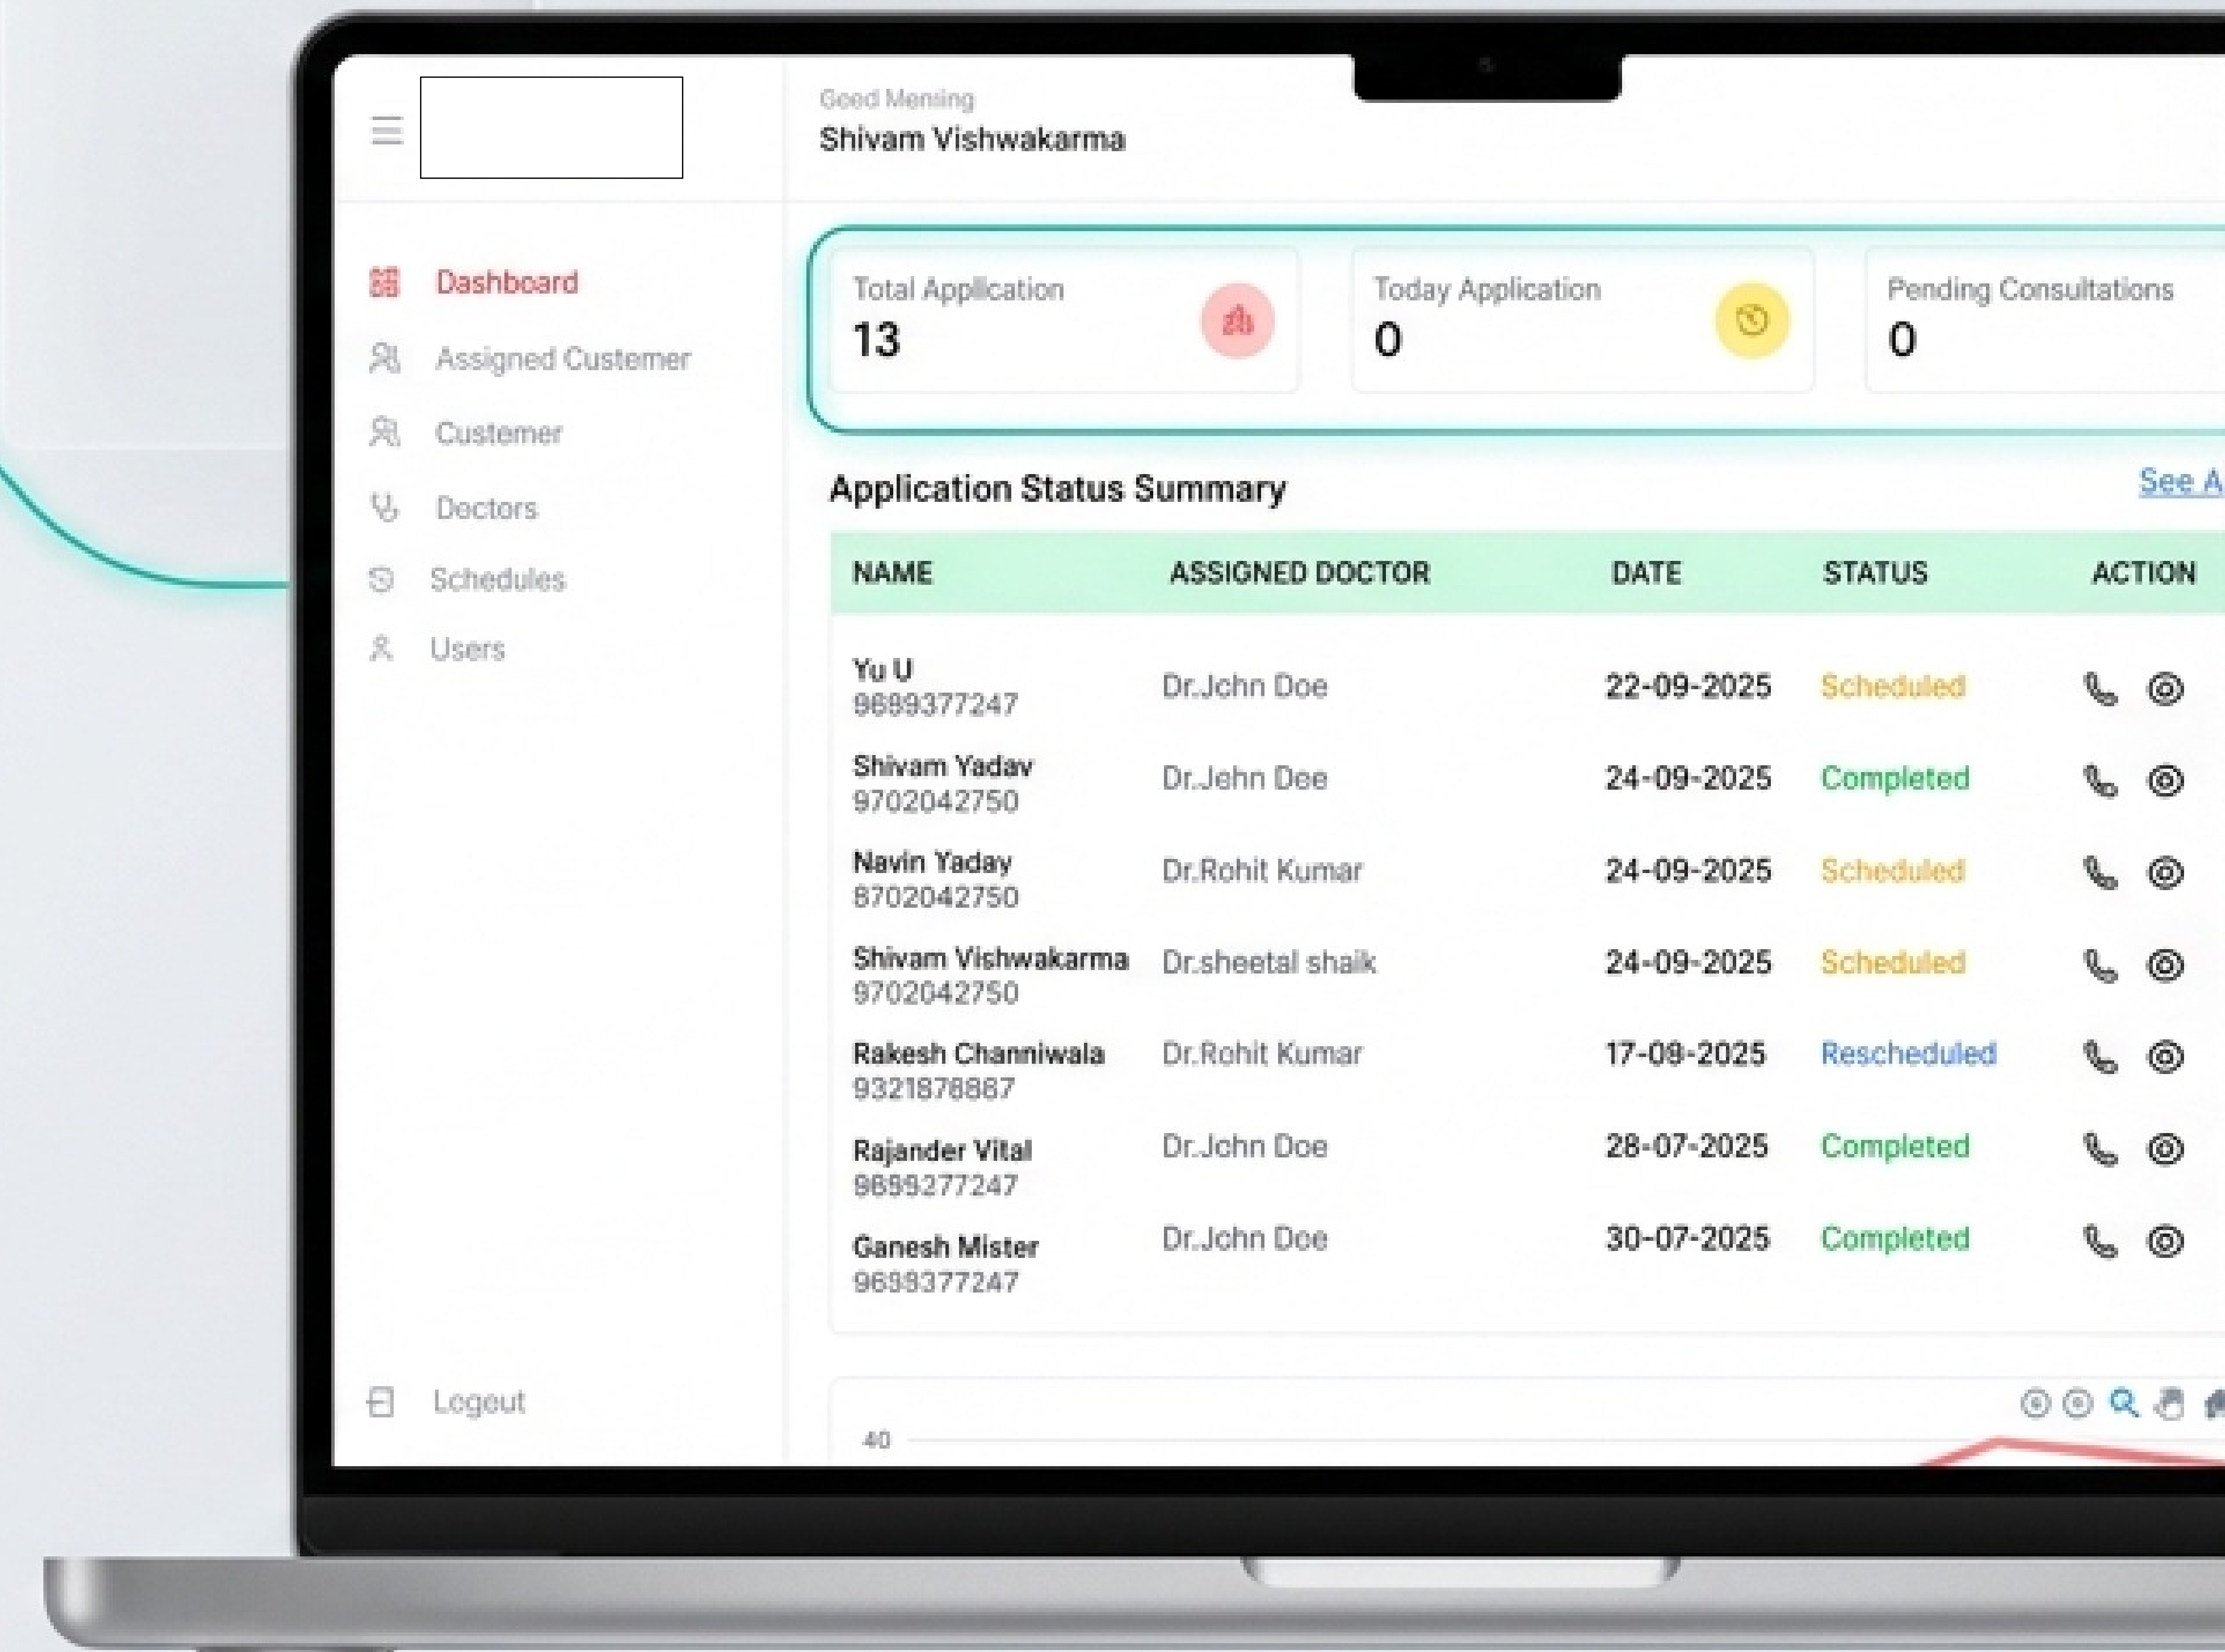

For Patients

- No app learning curve or downloads.
- No login credentials to remember.
- One-click access via SMS.

Command Central: Total Operational Visibility

- **Real-Time Analytics:** View Total Applications, Today's Applications, and Pending Consultations at a glance.
- **Status Tracking:** Instant visibility on Scheduled vs. Completed vs. Rescheduled appointments.
- **The Central Rule:** Only Admins can register users (Doctors/Patients). Neither doctors nor patients can self-register to guarantee data accuracy and fraud prevention.

Precision Scheduling Without Conflicts

1. Select: Admin chooses Patient and Doctor from the secure database.

Schedule Call

Search Patient

Appointment Date

Appointment Time Slot

8:45 AM	10:15 AM	11:45 AM
12:15 PM	01:00 PM	2:30 PM
2:00 PM	2:40 PM	6:10 PM
4:42 PM		

Appoint Doctor
Choose Doctor

Submit

2. Schedule: Select Date & Time slot. The system automatically locks slots to prevent double-booking.

3. Dispatch: System auto-generates a unique link and instantly dispatches it via SMS.

Benefit: Eliminates meeting collisions and manual coordination calls.

Clinical Focus, Zero Distractions

10	Neha Aspa	DR. Sridhar Kumar	Scheduled	07 Oct 1999	2023-05-17 13:00:00	Report Join Meeting Updated Status

Logout

Streamlined View

Doctors see a clean list of assigned patients with clear status indicators like 'Scheduled' or 'Completed'.

Action Oriented

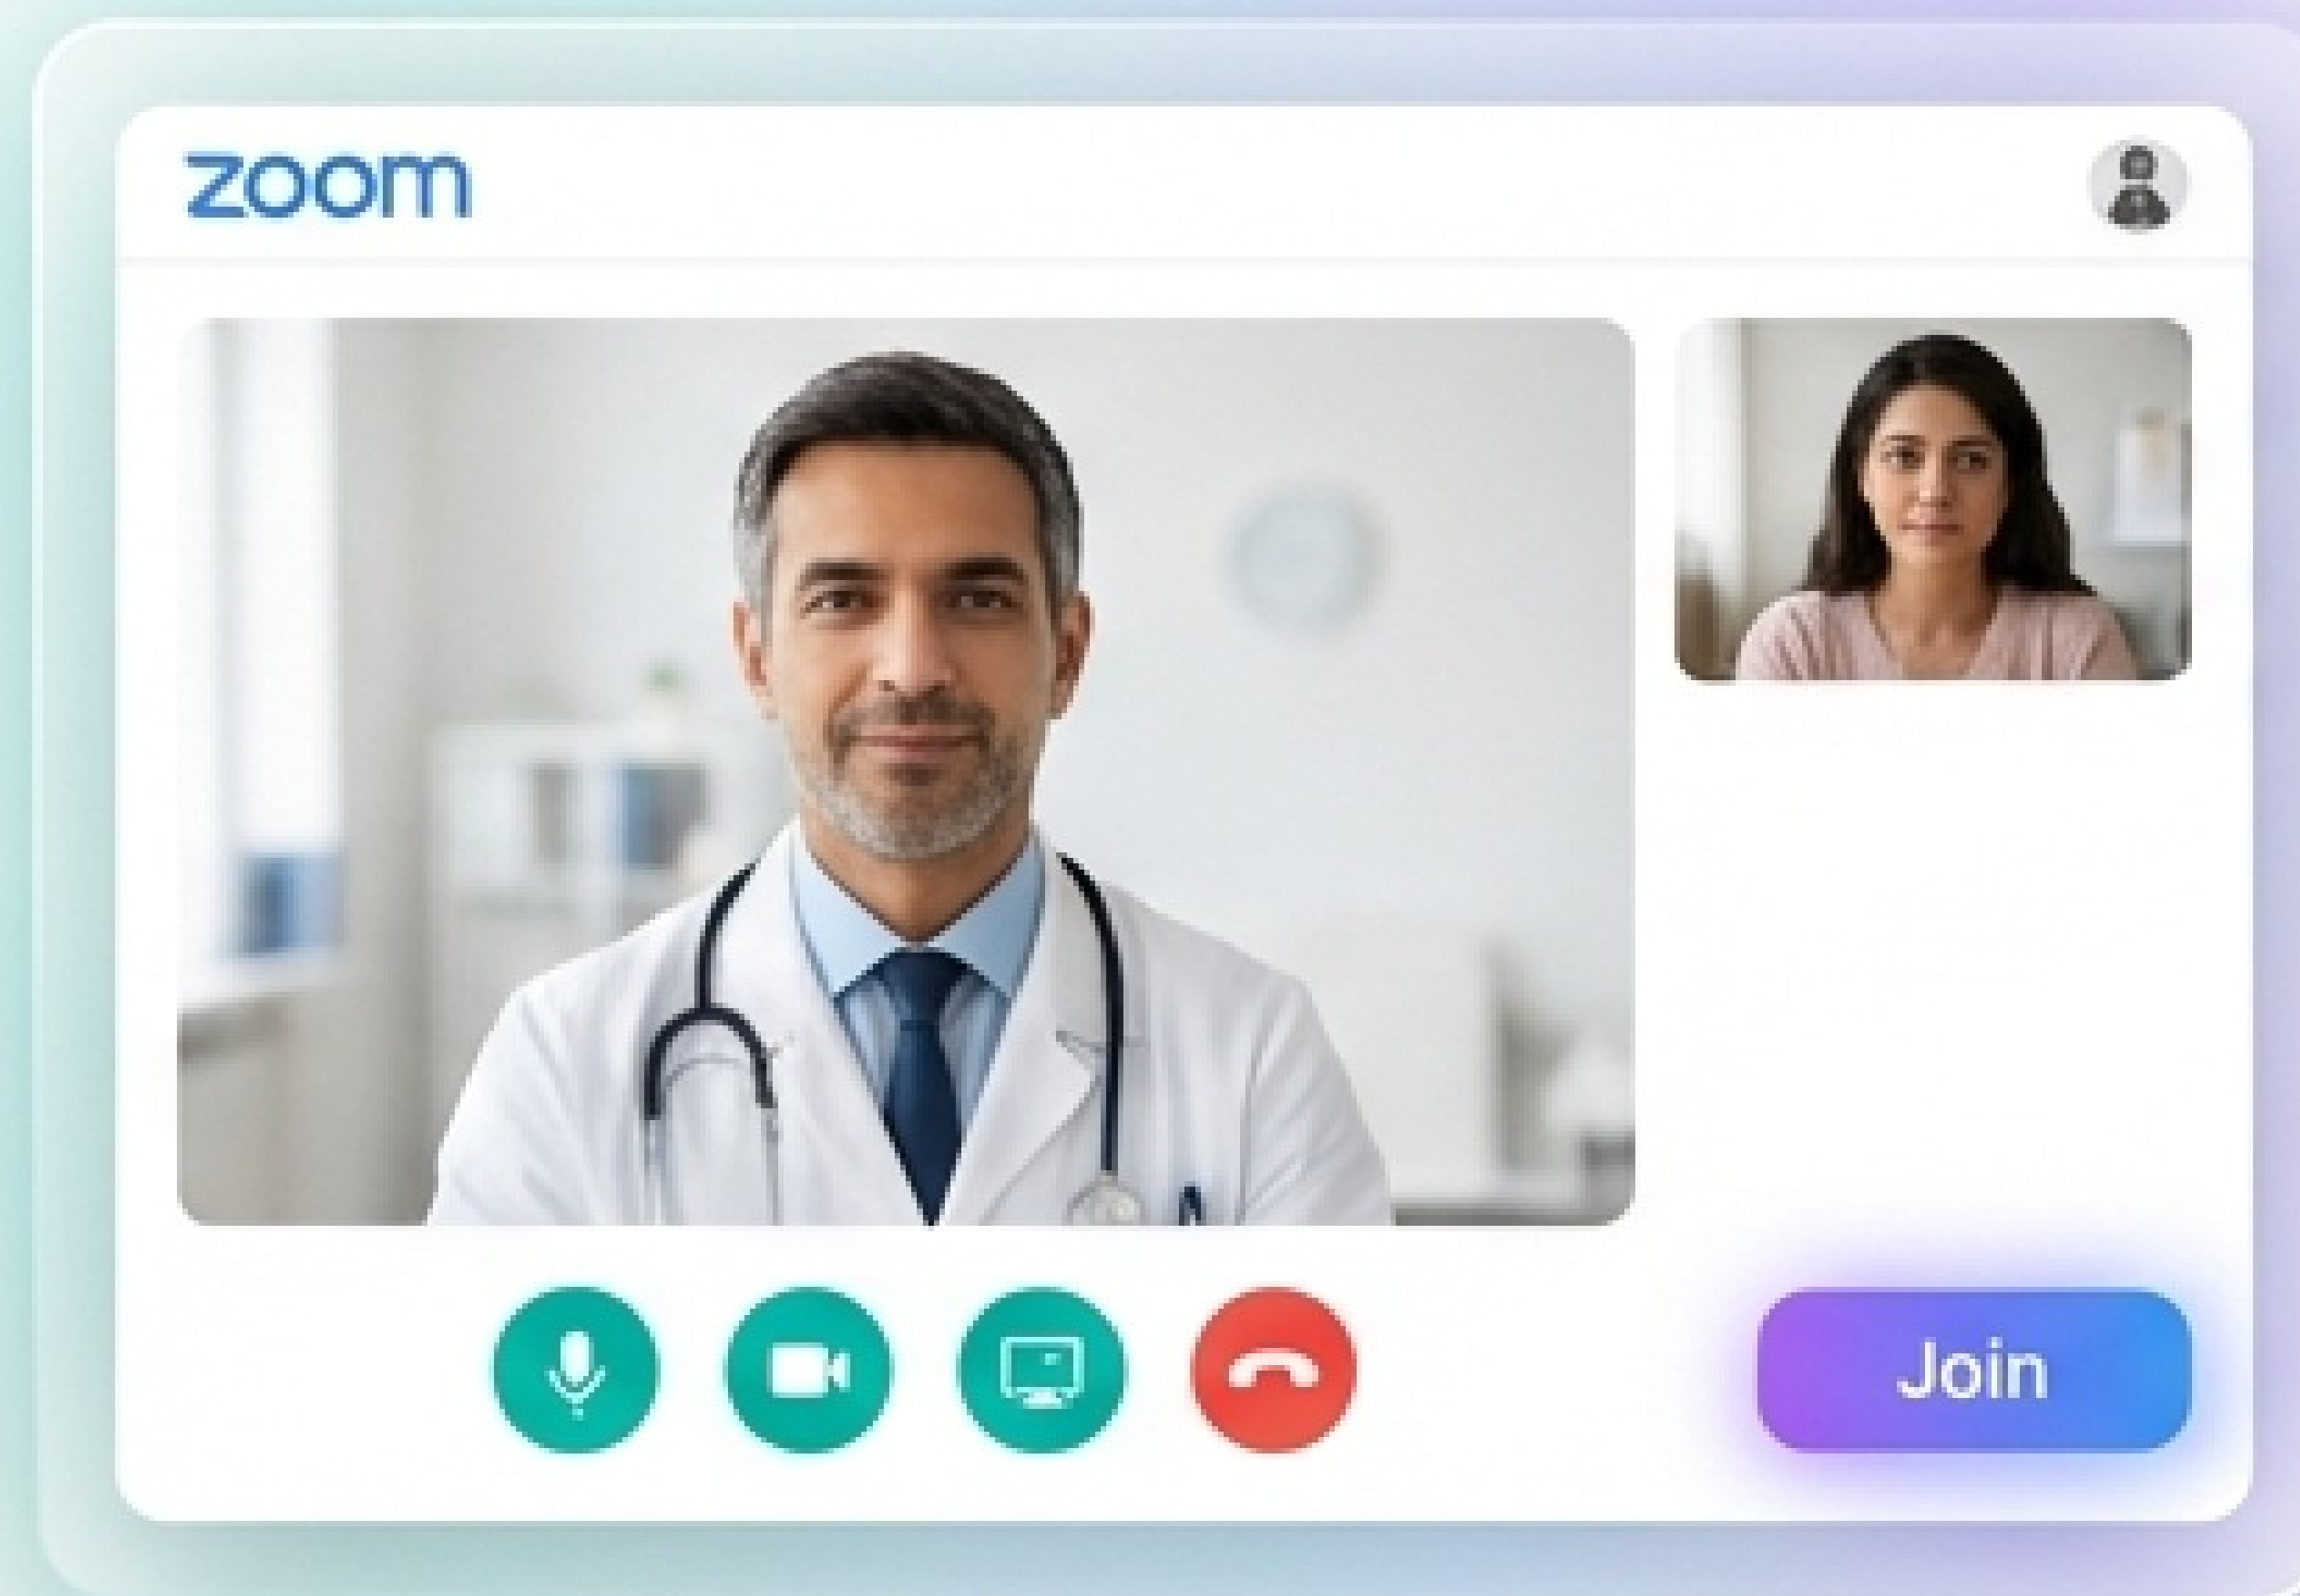

One-click buttons for 'Report', 'Join Meeting', and 'Updated Status'.

Integrity Control

Doctors can view history and conduct care, but cannot modify admin-level data or register new patients, ensuring record integrity.

Integrated Virtual Care & Reporting

Teleconsultation

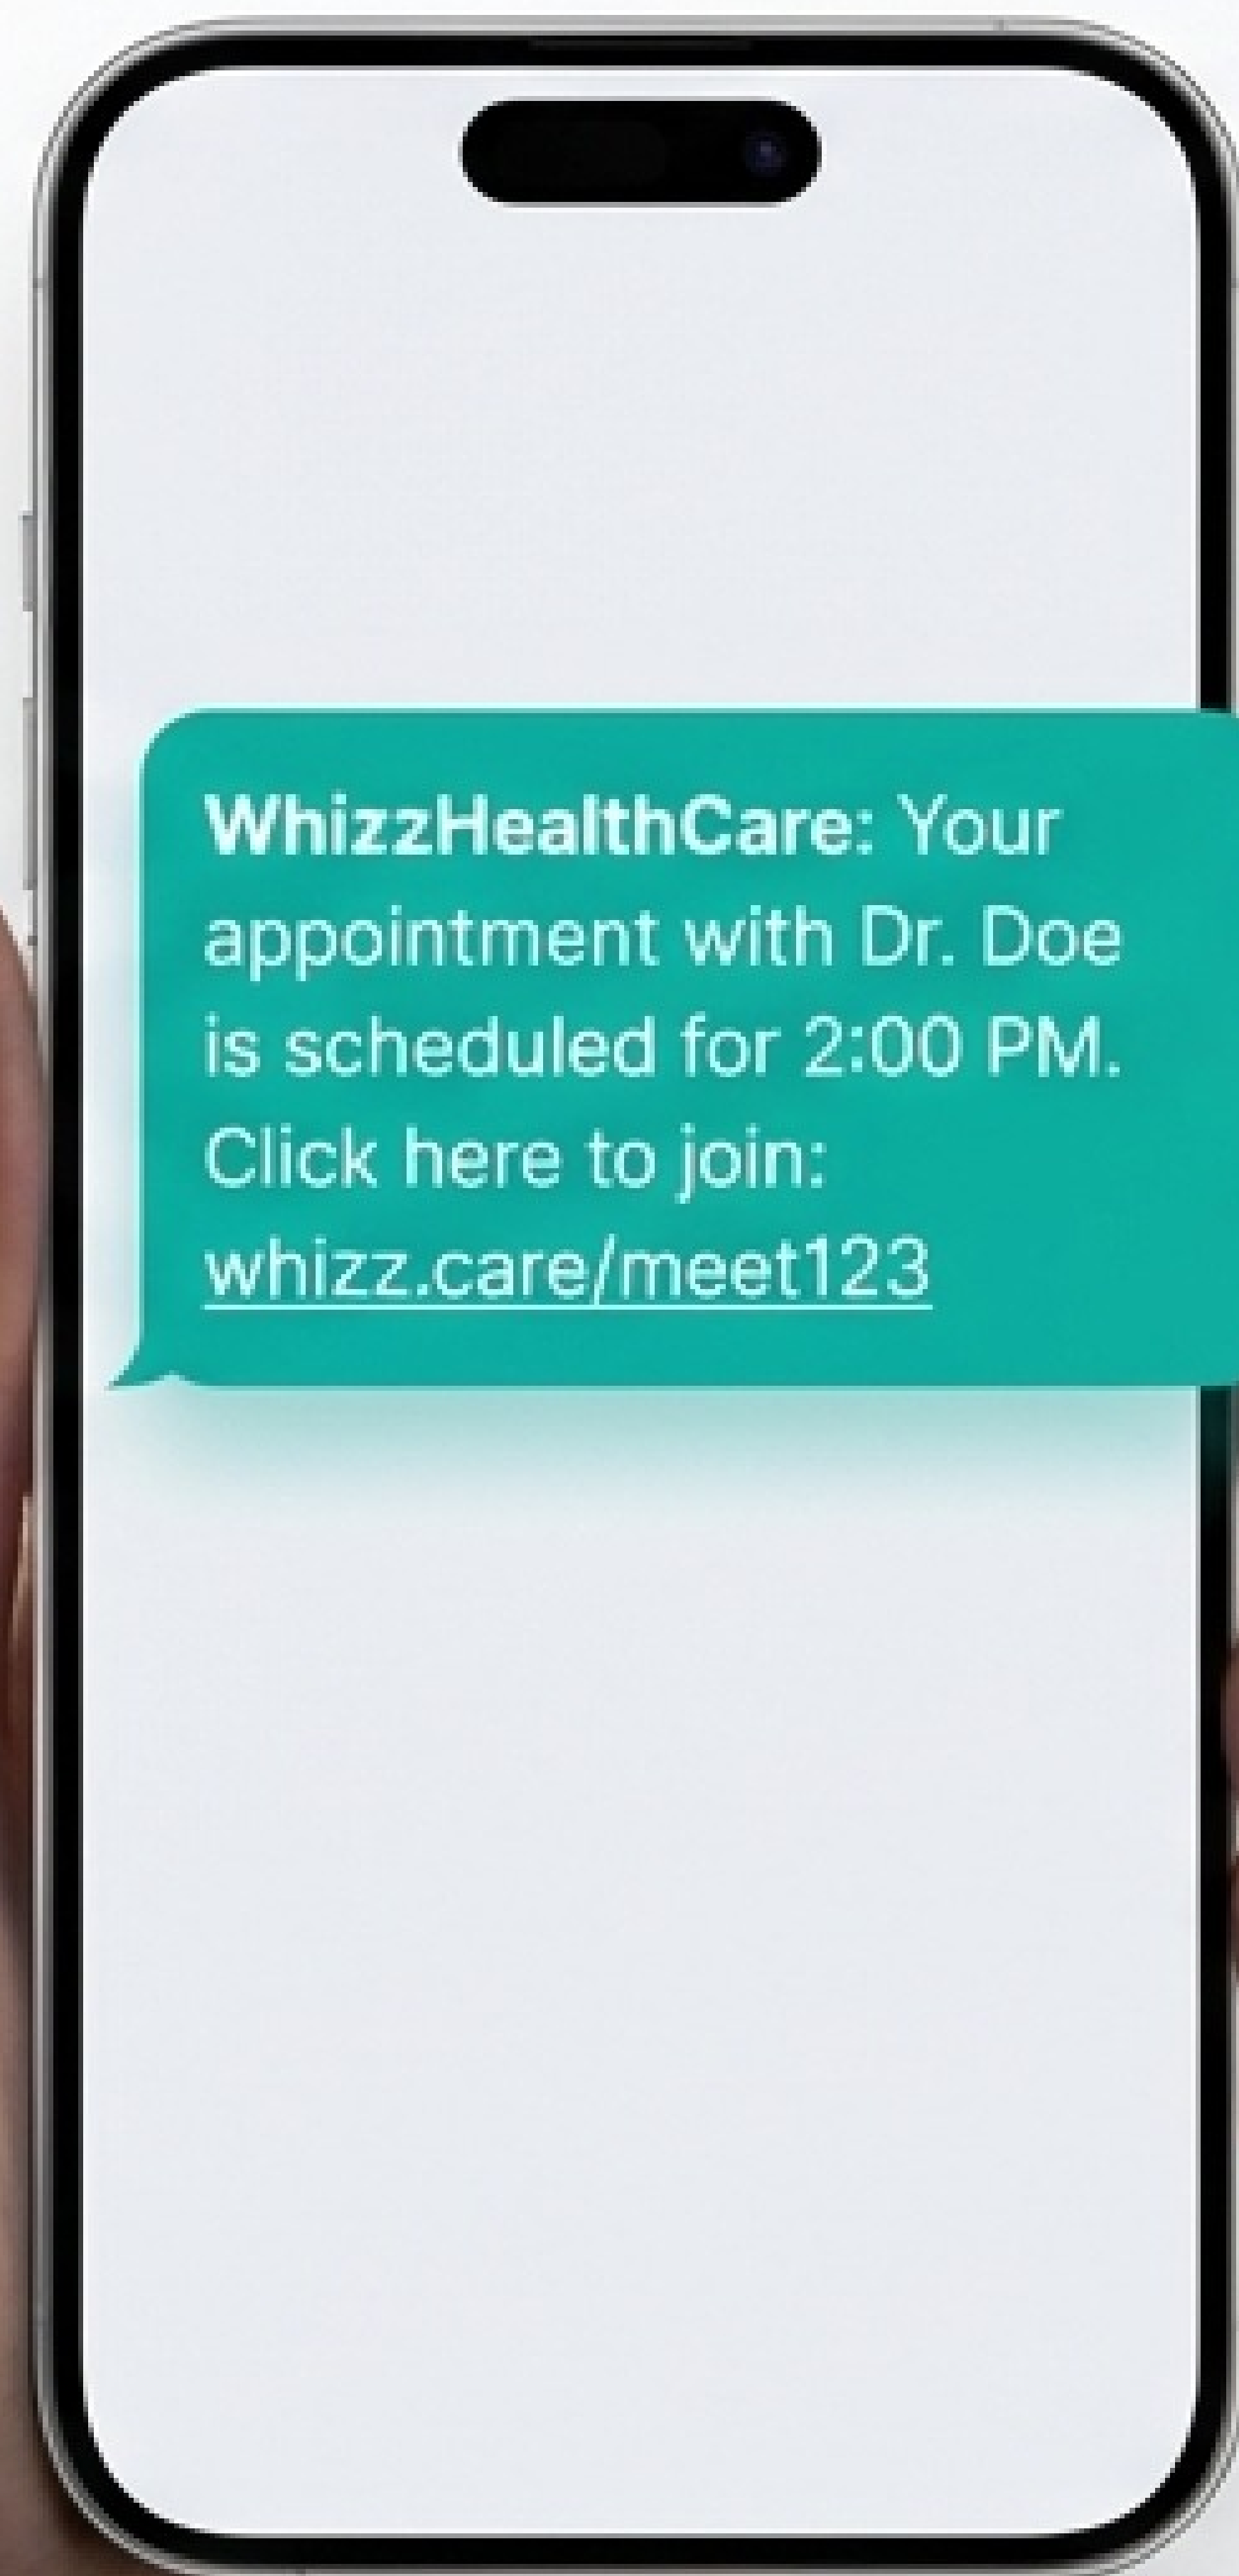

Zoom Workspace Integration: Seamless, one-click video calls with no external account setup required. Every appointment generates a secure, unique session link.

Digital Medical Records

- **Creation:** Doctors generate reports directly within the session.
- **Storage:** Reports are saved as immutable PDFs linked permanently to the patient profile.
- **Access:** Restricted to Admin and the treating Doctor only.

The Frictionless Patient Journey

The "No-Login" Advantage

- **No Barriers:** No app to download, no password to forget, no registration forms.
- **The Flow:** Receive SMS → Click Link → Join Call.
- **Privacy Guard:** Patients have 'Join Only' access. They cannot view internal records, prescriptions, or other patients' data, ensuring strict privacy compliance.

Enterprise-Grade Protection for Sensitive Data

Data Privacy

DPDP Compliant with strict
Role-Based Permissions
(Admin / Doctor / Patient).

Encryption

Passwords hashed using Bcrypt;
Data encrypted at rest and during
HTTPS transmission.

Access Control

Purpose limitation ensures
patients cannot view internal
logs and doctors cannot alter
admin records.

Built for Reliability & Scale

Backend.

Robust Laravel (PHP) architecture for secure logic handling.

Database.

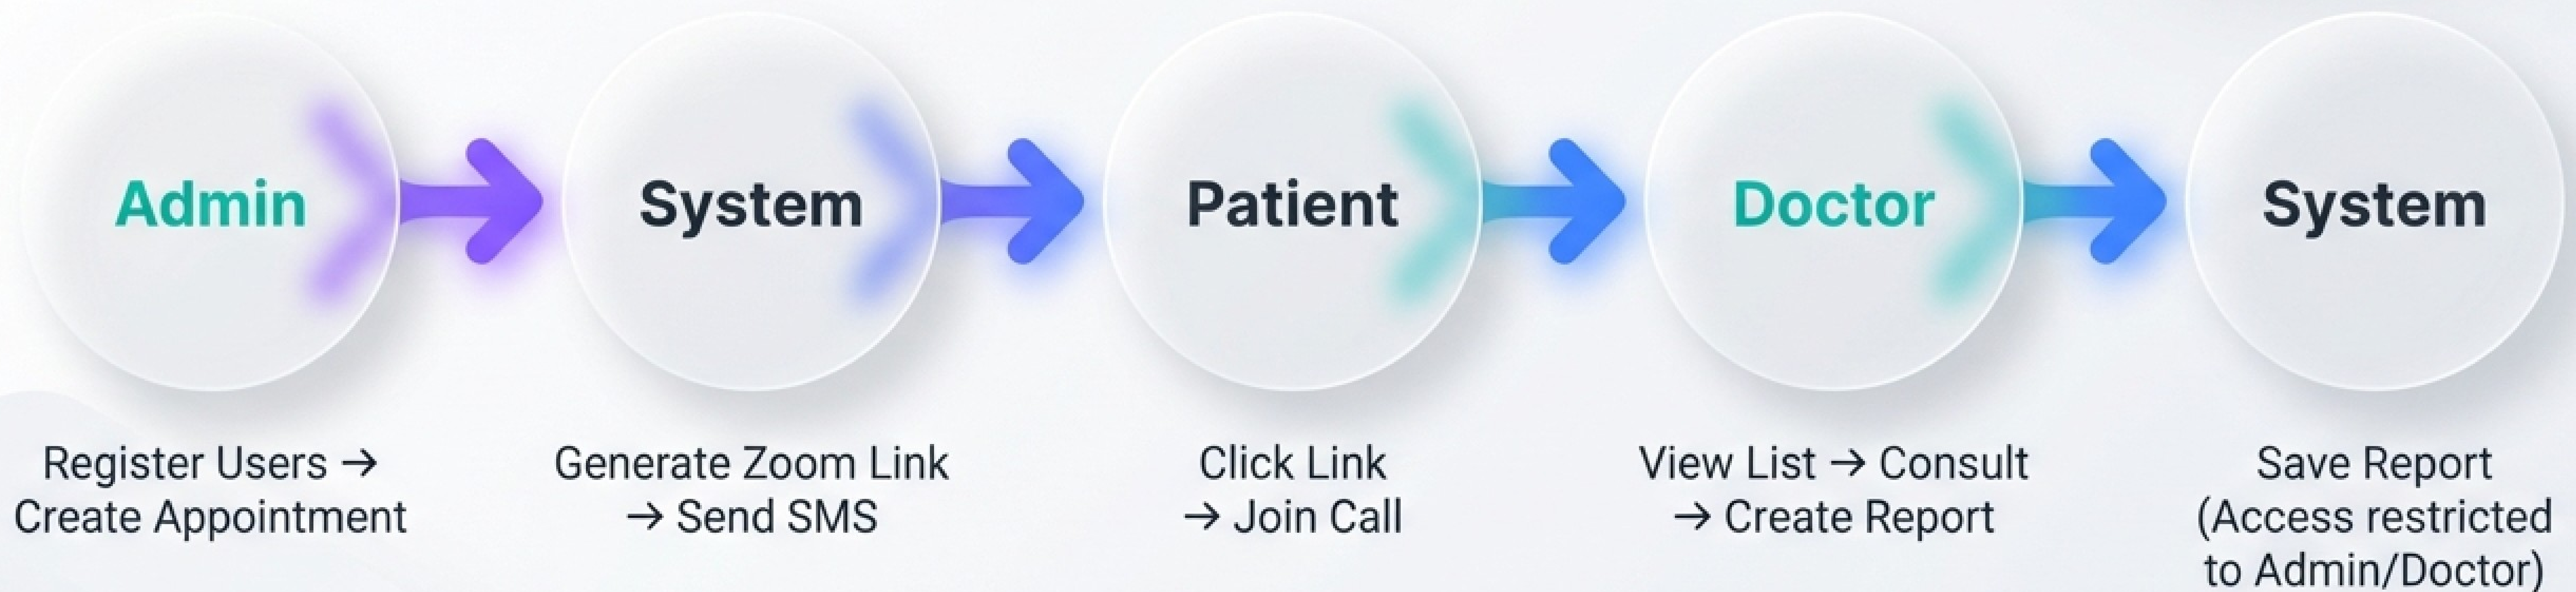

MySQL with optimized indexing for speed, even with thousands of records.

Infrastructure.

Modular design allows for easy server scaling as patient volume grows.

Orchestrating the Care Cycle

Ready to Deploy
